vasopressin 717
effect on carbohydrate metabolism 717
effect on lipid metabolism 717
regulation of adrenal gland 360
regulation of adrenocortical function 360
vasopressin receptors 360, 717
vertebrates 66
endocrine systems 66
Vibrio cholerae 66
Vinca alkaloids 66
VIP
see vasoactive intestinal peptide
viral tract-tracing 329
virilizing adenomas 432
vitamin A 487
vitamin E 557
voglibose 673
effect on pancreatic islet function in diabetic rats 673
volume hypertension 246
aminopeptidases 246
rat saline model 246

W

Walker carcinoma 249
weight relative to height 565
prepubertal children 565

X

xenotransplantation immunology 509

Y

YM-286 543

Z

zacopride 398
zona fasciculata 404
zona glomerulosa 323, 334, 355. 368, 404
effect of NPY-family peptides 368
zona reticularis 404
